

**AntikParquet**

# Preface

A rich and fine collection of antik floors meticulously sculpted from Oak. Stunning parquetry panels by hand. Every piece carefully selected and crafted to create timber floors of exquisite beauty: Beyond Timber's Antik Parquet Range.

Your own personalised patterns, designs and creations can be shaped and completely customised.

We have chosen to only work with species that are sustainable as we care for the environment and understand all too well that the resources we deal with are not endless if not properly taken care of. To extend that care to your environment, we use VOC-free natural oils to protect your floor, not only an environmentally friendly option but also one that promotes healthy living.

We hope you enjoy our Antik collection and become as inspired as we are with this range.
